VERY INTERESTING LECTURE GIVEN ON A TRIP TO SIBERIA BY SERGT. A. E. MIGHT

The Union Church was filled last Thursday evening with a very appreciative audience who had come to hear Sergt. A. E. Might tell of his experiences in a trip to Siberia with the Canadian Expeditionary Force.

The meeting was opened by a pianoforte solo by Lieut. Magary who has just returned from France, after which the chairman, Sergt. R. Acheson, in a few words introduced the speaker of the evening.

Sergt. Might in his introduction said that he did not wish to speak from the soldier's point of view, but to give some idea of the life of the civilian over in Siberia. After telling of the interesting events which happened on the sea voyage and the reception they received on their arrival at Vladivostok he gave a very graphic description of the lay of the city and the prominent buildings, the first of which was a very fine building, and would be a credit to any Canadian city. The station, he said, was always filled with refugees, who had come from inland owing to closing relatives and their homes by the ravages of war.

Although Vladivostok had a population of 10,000 people, yet they had no water system or drainage, and the soldiers had orders to boil all water before drinking same. Sergt. Might said that it was nearly impossible to tell who were civilians and who were soldiers, because every tradesman wore a special uniform, as did the school boys and university students. In speaking of the governing of the town, he said, there was none, and although there were policemen parading the streets armed with a sword, they were practically useless, as their orders were never obeyed.

Sergt. Might spoke of his visit to the famous Russian forts, which were situated about twelve miles from the city of Vladivostok. These forts were built during the Russo-Japanese war in 1904, and are the finest in the world.

There were some very interesting curios on display which the lecturer had collected while over in Siberia.

The lecture from start to finish was most interesting and instructive, and gave the audience a great deal of knowledge on the customs and conditions which exist in that country.

Lance-Corporal Arthur Whitlock, who has just returned from overseas, is visiting his brother, F. J. Whitlock. Lce-Corp. Whitlock enlisted with the 12th Field Company in Toronto. After going through several severe engagements with the Hun he was gassed on the day before the Armistice was signed.

Huns Will Now Face the Inevitable

Berlin. — Official quarters in Berlin have learned the probable terms of peace and a lengthy session of the cabinet followed, at which the action which Germany is to take was discussed. It was considered in some quarters that Count von Brockdorff-Rantzau would refuse to sign the peace treaty and resign, but the opinion is general that Germany must accept, since she is helpless.

The resignation of the foreign minister would only delay a settlement of the question, for, if his cabinet left office with him, independents, it is believed, would surely take up their positions and their first act would be to complete the terms.

The first newspaper in Berlin to publish the forecast headed it, "Germany's end as a great power."

The Tageblatt says the size of the German army can only be decided by the league of nations and that it will be impossible to pay £1,000,000,000 indemnity. The newspaper calls the decision regarding the Saar "Hardly disguised annexation," and says that it cannot be accepted.

The Danzig solution also is declared to be inacceptable. The decision as to Germany's former colonies is arousing protests.

The National Zeitung publishes what it terms the official standpoint the government expects to take regarding the peace terms.

The government, according to the newspaper, will refuse to sign any part of the treaty which provides for "Oppression of Germany." For instance, the entente's standpoint regarding Danzig and the Saar Valley will not be acceptable. The German delegates, however, will make every effort to institute negotiations on these and other unacceptable demands.

Clause Stipulates Kaiser's Trial

Paris. — The clause regarding responsibilities, which was not acted on at the previous session of the plenary conference, it is understood, has been incorporated in the final draft of the treaty. This provides for the trial of the former German emperor for a supreme offence "against international morality and the sanctity of treaties," by a tribunal composed of representatives of Great Britain, the United States, France, Italy, and Japan.

Germans Would Massacre Jews

London. — An Exchange Telegraph company dispatch from Berlin reported that hatred against the Jews has been displayed recently in the German capital and that placards have been distributed, asking the citizens to massacre Jews because, the notices assert, the Jews killed 200 children at Easter.

Unrest in India

Afghan Troops and Tribesmen Cross Border and Trouble Expected

London. — Afghan tribesmen have crossed the Afghan border with the assistance of Afghan regular troops and have occupied certain positions on the Indian side of the border, according to a despatch from the India foreign office. Military precautions have been taken by the British, who have addressed a vigorous note to the Amir.

It has been reported for some time that the new Amir had adopted an unfriendly attitude towards the British and contemplated an invasion of the northwest frontier and Khyber Pass, the principal northern pass into that country from India. No large number of tribesmen are concerned, but they have occupied some heights of importance commanding two roads leading across the frontier.

Siberian Army Needs Clothes

Unique Plan Devised for Providing Wearing Apparel

Vladivostok. — The Siberian army needs underwear and the powers that be have devised a unique plan for providing this wearing apparel. In brief, this solution is conscription of underwear.

The male population of the city is ordered to provide the clothing on the following scale:

Those enjoying a salary of 600 to 1,000 roubles a month must supply one set. Those who earn from 1,000 to 1,500 roubles a month are asked for two sets. From 1,500 to 2,000 roubles the tax is three sets, and from 2,000 roubles upward, four sets. Owners of real estate and commercial and industrial firms have to furnish underwear on the same scale, according to the income of their business. A set of underwear consists of one shirt, one pair of pants, one pair of socks and two pairs of foot rags.

British Shell Bolsheviks

Archangel. —British gunboats were active against the Bolsheviki for the first time recently. They co-operated with a strong patrol which broke through an enemy outpost north of Tulgas and destroyed dugouts and an ammunition dump.

A Bolsheviki attempt against the British, United States and Russian positions at Malo Beresenick was repulsed.

Ambassador of Reds Was Shot

Copenhagen. — When Polish forces captured Vilna recently they captured and shot Adolphe Joffe, the former Russian Bolsheviki ambassador at Berlin, according to Polish newspapers received here.

Summary of Peace Pact

Germany is deprived of her fleet.

Her army is cut to small issue.

Military aspirations are pruned.

Economic restrictions are laid down so that she can pay indemnities.

She cannot strangle competition in trade.

Saar basin coal output goes to France for years.

She must make restitution for damage to France, Belgium and other countries.

Heligoland must be demolished.

Kiel Canal must be freed.

Alsace-Lorraine will be returned.

Ex-kaiser Wilhelm will be tried.

German territory must be ceded on all hands to surrounding allied nations.

Frontier of 1871 has to be restored.

She must renounce rights to all colonies.

Dismantling of Rhine fortresses demanded.

Assume pre-war debts on ceded territory.

Allow unhindered transit in Germany.

Internationalize her rivers and give up control of the Rhine.

Germany must also pay to the limit the cost of the war to all allied nations.

Ammunition Depot Explodes

Many Killed and Country South of Brussels Devastated

Brussels. — A depot of German ammunition containing shells and bombs of every calibre and many gas shells has been exploding at the railway station at Groendael, six miles south of Brussels, where Canadian troops were inspected by King Albert eight days ago. The depot has been under guard of 150 Belgian soldiers, and six hundred German prisoners have been at work near it. It is believed there are many killed and wounded, but the number of victims will not be known for several days.

Many houses in the neighborhood have completely collapsed and windows and roofs for two miles around the scene of the explosion have been shattered. This is especially the case at Hoeylaert and neighboring towns where there are thousands of hot houses. The movement of trains over the Namur Luxemburg line has been interrupted. It is reported that while workmen were unloading a wagon filled with shells a detonator exploded in the hands of a German prisoner, setting fire to the ammunition boxes. After the explosion the German prisoners broke the barbed wire cordon surrounding the camp and fled in all directions through the woods. Only 150 have been arrested since. The Belgian guards at the depot succeeded in escaping in safety. The explosions were clearly heard in Brussels.

Munich Expresses Joy

Munich. — All Munich celebrated the victory over the Soviet government. The streets were crowded with people who cheered the passing troops or gave them refreshments. Captured Spartacans were hooted as they were escorted through the streets, bands played national airs outside the captured palace and the crowds sang patriotic anthems.

Germany Refuses to Pay Indemnity

Paris. — The German delegates to the peace congress declare that they will sign the peace treaty, but that Germany will not pay an indemnity. In the discussion of peace terms by Germany, through both her official and unofficial spokesmen, she has invariably drawn a distinction between reparations and indemnity, construing the latter in effect as punitive damages. It seems probable, therefore, that the refusal to pay an "indemnity" would mean in effect that she would decline to pay what she regarded as such damages.

Cheap British Automobile

London. — An English manufacturing company announces that it is prepared to put on the market an automobile that can be retailed for between £50 and £60. Scarcely any wood will be used in the construction of the car, the principal material being a new substance which is described as "a kind of concrete, light, but strong and durable, produced from waste material such as slag, clinkers, and sawdust, and covered with a metal solution."

Government Should Aid In Exporting Grain Crop

H. W. Wood Says That Failure Would Be Crime Against People

Calgary. — Unless at an early date adequate steps are taken by the Dominion government to assist in financing the export of the grain crop of 1919, Canada will be confronted with the greatest conceivable disaster, is the opinion of H. W. Wood, president of the United Farmers of Alberta. "If present prospects are fulfilled," said he, "the harvest of the present season will be the greatest in our history, and exactly for this reason it is our duty and it is of the utmost importance that steps should be taken to insure that it shall find an outlet.

"I can conceive of no more serious crime against the people of this country than for the authorities to fail to take the necessary steps.

"Perhaps," said he, "the government has a plan, but if so, I certainly have heard nothing of it, and it is of the utmost importance that the farmers should be reassured in this matter. The vital interests, not only of the farmers, but of the whole community, are bound up in agriculture."

Helium for Airships

Large Quantities Will Be Produced in Canada at Low Price

London. — Professor McLennan of Toronto University, was invited by the British admiralty in 1915 to investigate the possibility of large scale production of helium, found in large quantities available in natural gas in Ontario and western Canada, producable at a cost of a shilling per cubic foot. The United States also co-operated and gave large orders for machinery and plants. Thus the possibility of securing large supplies of helium was assured simultaneously with the practical details of production.

Airships inflated with helium have been developed by the British navy and the progress made warrants the opinion that in another year large quantities of helium will be produced in Canada at a low price and helium-filled airships will be in service.

Scheme for Tunnel Formulated in 1867

Experiences of War Have Made It Nearer Fulfilment

London. — The revived interest shown in the project of constructing a tunnel under the Straits of Dover to connect England and France by railway is a reminder that this scheme was first formulated in 1867, and that only the experiences of the war and the increased friendship between the two countries on either side of the channel have made it nearer fulfilment. Ever since the report of the first Anglo-French committee was made on the subject, active work has been held up by the attitude of British military opinion. That opinion, according to Sir Arthur Fell, M.P., the chairman of the house of commons channel tunnel committee has now experienced a change, and from this change arises the hope of the supporters of the scheme, that the construction of the tunnel may at last be taken in hand.

Sweden's Last Year Harvest

Stockholm. — In spite of the fact that the crop of last year's harvest in Sweden might be described as medium compared with the harvest of 1917, the monetary value shows a great increase for nearly all kinds of cereals and vegetables. The central bureau of statistics estimates that the total value of the harvest amounts to the large sum of 2,360,432,000 crowns, an increase of over 1,000,000,000 crowns on the average of 1913-1917, the amount then being 1,223,287,000 crowns.

Dutch Frontier Problem

Brussels. — In reply to an invitation from Belgian socialists to their Dutch comrades to proceed to the Belgian capital in order to discuss the differences relating to the disposal of frontier territories, the Dutch socialists have appointed a delegation for that purpose. It will consist of Messrs. Suze Groeneweg, deputy for Rotterdam; Vliegen and Gigaut, magistrates of Amsterdam, and Roode, editor of the paper Het Volk.

Went to Conference in Airplane

Paris. — Paul Hymans, the Belgian foreign minister, left Brussels in an airplane at one o'clock and reached here at two p.m., in time to attend the plenary session of the peace conference.

Austria Must Pay Large Indemnity

Japanese Fix Indemnity Claim

On Account of Destruction of Tonnage During War

Washington. — Japan's claim for indemnity from Germany on account of the destruction of Japanese tonnage during the war will amount to not less than $175,000,000, according to advices from Tokio. The Japanese steamers actually sunk number 26, totalling 110,451 tons, and in addition, five vessels of 17,964 tons are regarded as having been sunk by German craft, although there is no conclusive proof. In the aggregate, these vessels number 31, totalling 128,415 tons. The amount of damages desired for loss of tonnage does not include personal damages due to the loss of lives.

Soviets Arrest Revolutionists

London.— A wireless message from Budapest announces the execution by the revolutionary tribunal of two men and imprisonment for a long term, with hard labor, of several others, under accusation of planning a conspiracy on a large scale. In a public speech, the Hungarian commissary, Mr. Saxonely, has described the duty of the Bolsheviki as the stirring up of revolution throughout the whole of Europe.

Small Powers Allowed

Paris. — It was decided that the following delegations which were to be excluded will be admitted to the congress at Versailles when the peace terms are handed to the Germans: China, Siam, Cuba, Guatemala, Nicaragua, Hayti, Panama, Liberia and Honduras.

New York. —The Associated Press issues the following:

While the German peace plenipotentiaries are digesting the text of the lengthy peace treaty handed them and communicating with the Weimar government as to the demands made upon Germany by the allied and associated powers, the council of four is engaging itself with the formulation of peace terms for Austria and Hungary.

The German Austrian delegation is reported already to have started for St. Germain, France, there to await the summons to Versailles to learn what is to befall the one-time dual monarchy in the way of the payment of indemnities, the making of reparations and the relinquishment of territory.

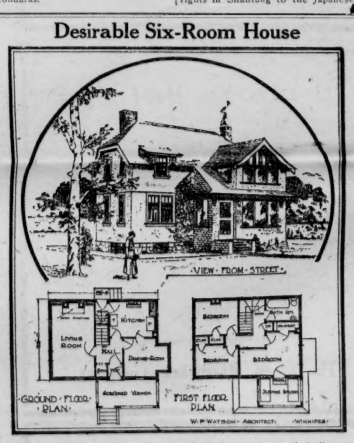

Estimates have been made in Paris that five billion crowns will be demanded as indemnity from Austria-Hungary, in addition to the determination of frontiers. The pre-war debt of the former empire and kingdom, it is stated, is to be divided among the newly formed states which have arisen, or are to arise in their old territories.

It is reported that when the terms of peace with Turkey are concluded, the United States is to be requested to become the mandatory of Armenia, and that President Wilson will place the matter before congress in order that a decision may be arrived at.

Chinese Objections

Pekin. — The Chinese cabinet, at a meeting decided to instruct the Chinese delegates in Paris not to sign a peace treaty assigning the German rights in Shantung to the Japanese.

Desirable Six-Room House

It is not necessary that the small inexpensive home should be unattractive as to exterior or incomplete and inconvenient in the interior.

The design shown herewith demonstrates those two facts absolutely.

A glance at the perspective and the reader instinctively thinks of an expensive home, but look at the floor plans and it will be seen that the house is only twenty-two feet by twenty-eight feet. The expensive effect is due to the fact that the lines of this home are artistically good and naturally the architectural proportioning is correct.

The large living room with its open fireplace is laid out so that furniture may be placed to display itself to advantage.

Notice may well be drawn to the secluded screened verandah and the sleeping balcony. Height is obtained by the sweeping balcony ceiling by the steps from the room floor level to the floor of the balcony.

This is an altogether to be desired small home.

End of Germany As a Military Power

Versailles. —Today the allied terms of peace were handed to the German delegates. The document, long as it is, is shorter than was indicated by the forecasts, which estimated its length at 100,000 words. The treaty is not printed in German. The text is in French and English, on opposite pages.

The terms of the treaty spell the end of Germany as a military power. She is deprived of virtually all her fleet; her army is cut down to nominal dimensions, and she is sharply restricted along lines through which she might seek to work militarily and rehabilitate herself. Economically, also, the future of Germany is hedged about with stipulations intended to insure her ability to pay the indemnity demanded by the allies, and to prevent her from exploiting her old-time resources as a strangling competitor of the nations about her which she overran and devastated during the war.

Thus, for instance, Germany, for a period of years at least, will be deprived of the coal output of the rich Saar basin, which goes to France in repayment of the damage caused by the destruction of the French coal mines. She likewise is compelled to make restitution for the damage in other ways done to France, Belgium, and the various other countries, which suffered from Teutonic depredations in various forms. In numerous other ways she is made to realize that her more than four years' career of destruction must be made good.

Elaborate preparations were made for the historic occasion of handing the peace terms to the Germans in the Trianon hotel, both in and outside the building.

Outside there was a small army of gendarmes who formed a barrier against the approach of such persons as were not entitled to enter the room where the momentous scene was to be enacted. Inside, everything was in readiness for the meeting between the allied and associated delegates with the German plenipotentiaries although the early morning hours had witnessed a rearrangement of the great hall, for orders had been received to prepare seats for 80 delegates, instead of for 58, who were expected to comprise the maximum delegation. The French functionaries busied themselves with the task of stretching out tables to accommodate the extra guests and laying a new rug to fit the altered dimensions. The increase of the delegations was effected, at the cost of space which had been assigned to the press.

Aside from the great men gathered in the hall, the most striking feature was a large antique rug of bright, almost garish colors, which was brought from the Chateau Versailles to cover the open space in the centre of the hollow rectangle of the peace table. Although dating from the time of Louis XIV, the rug is in a perfect state of preservation. It is known as a Savonniere, and it served to brighten the entire room. The rug was the only link in the conference chamber connecting the ceremony with the time when France was a monarchy.

Brief Speech Which Attended Peace Terms

Versailles. — In opening the session of the peace conference, M. Clemenceau, presiding officer, speaking to the Germans, said:

"It is unnecessary to express needless words. You have before you the plenipotentiaries of the small and great powers united in this most cruel war, which was imposed upon them. The hour has arrived for a heavy settlement of the account."

Paul Du Tasta, secretary-general of the peace conference, delivered a copy of the treaty to Count von Brockdorff-Rantzau, head of the German delegation, who made a brief reply.

Vount von Brockdorff-Rantzau said: "We declare that we do not deny the extent of our defeat. We know the power of the German armies is broken."

He said he was unable to admit that Germany was solely culpable and demanded that the allies make peace according to President Wilson's points.

Germany pledged itself to repair the wrong done to Belgium and gave assurance of the reconstruction of the territories in northern France.

Count von Brockdorff-Rantzau asked for the liberation of German prisoners and said that Germany adopted the league of nations.

Norwegians are Good Citizens

Moose Jaw, Sask. — That the Norwegians in western Canada, of whom there are 34,960, present no language problem is the statement of O. K. Thomassen, editor of Norden. He says that of these people only 711 are unable to speak and read English. He also states that the criminal record of these people is equally creditable.

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You simply say to the drug store man, "Give me a quarter of an ounce of freezone." This will cost very little but is sufficient to remove every hard or soft corn from one's feet.

A few drops of this new ether compound applied directly upon a tender, aching corn should relieve the soreness instantly, and soon the entire corn, root and all, dries up and can be lifted out with the fingers.

This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that, while freezone is sticky, it dries in a moment, and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin.

Don't let father die of infection or lockjaw from whittling at his corns, but clip this out and make him try it.

"Miss Hazel," said the Sunday school teacher to one of her sixteen year old pupils, "what are we to infer from the parable of the five wise and the five foolish virgins?"

"That we should always be on the lookout for the approach of the bridegroom," replied Miss Hazel.

An Always Ready Pill—To those of regular habit medicine is of little concern, but the great majority of men are not of regular habit. The worry and cares of business prevent it, and most of our ailments commence dyspepsia, indigestion, liver and kidney troubles are a protest. SUCH comfort is possible only with an AutoStrop Razor. Why the AutoStrop in particular? Because, with the handy stropping device, there's always a sharp blade ready for use. A few turns on the strop re-aligns the sawlike edge that results from shaving; it keeps the blade free from rust; and gives you for each day's shave the keen edge of a new blade.

You do not need to take the blade out to sharpen it, nor do you have to take the AutoStrop Razor apart to clean it.

Stropping, shaving and cleaning are all done without removing the blade from the razor.

Return of U. S. Troops

Washington. — Determination of President Wilson, as indicated in press dispatches from Paris, that no United States troops shall continue on German soil for a longer period after the signing of the peace treaty than may be necessary to embark them for home, is borne out by present plans of the war department, which contemplates the return of the entire United States expeditionary forces by September.

Offer Terms to Rumanians

Hungarian Government Requested Cessation of Hostilities

London. — The Hungarian communist government, a wireless message from Budapest says, has offered the Rumanian government territorial concessions and requested an immediate cessation of hostilities.

The Hungarian war office statement on April 30, says that the Franco-Serbian, Rumanian and Czecho-Slovak forces continued their advance on Budapest, the Rumanians capturing Mezotur, eighty miles southeast of Budapest.

The Hungarian government also has asked the Jugo-Slavs for a cessation of hostilities, offering territorial concession.

You Can Be Cured of

Catarrh

The Pure Balsamic Essences of Catarrhozone Afford Surest and Quickest Cure

Catarrhozone is certain to cure because its healing vapor is carried with the breath direct to the seat of the chest, nose or throat trouble. Being composed of the purest balsams and pine essences, it immediately allays irritations, facilitates the ejection of mucus, soothes and stimulates the lungs and bronchial tubes. The marvel of the age in curing nose, throat and bronchial troubles, that's what thousands say about Catarrhozone. There is nothing so sure to cure, and to those in fear of changeable weather—those who easily catch cold—those who work among lung-chilling surroundings, or where dust, impure air, fog, or damp can affect them—let them get Catarrhozone and use it several times daily—it will cure every time.

Large size Catarrhozone, sufficient for two months' use, guaranteed, price, $1.00; smaller size, 50c; sample size, 25c. Sold everywhere.

Prohibit Entry Of Undesirables

Owing to Conditions Prevailing as a Result of War

Ottawa. — Until further orders immigration of Doukhobors, Hutterites and Mennonites is prohibited. An order in council to this effect was signed by the governor-general. It was passed under the provisions of the existing immigration act, which gives authority to this end.

The order in council recites that, "Owing to conditions prevailing as a result of the war, a widespread feeling exists throughout the Dominion, and more particularly in western Canada, that steps should be taken to prevent the entry into Canada of all persons who may be regarded as undesirable because, owing to their peculiar customs, habits, modes of living and methods of holding property, they are not likely to become readily assimilated or to assume the duties and responsibilities of Canadian citizenship within a reasonable time."

Hamilton Veteran Tells His Friends

That Dodd's Kidney Pills Are the Remedy for Kidney Ills

Mr. S. Hodges, Seventy Years Old, but Still Young, Tells Why He Know's Dodd's Kidney Pills Are Good.

Hamilton, Ont., May 12, (Special).—Convinced that Dodd's Kidney Pills are a sovereign remedy for kidney ills, Mr. S. Hodges, who lives at 68 Ontario Ave., this city, is recommending them to all his friends.

"I suffered from kidney disease for about four months," Mr. Hodges says. "It started from a cold, but I rapidly got worse, and cramps in the muscles, headache, heart flutterings and rheumatism were soon added to my troubles.

"My appetite was fitful and I felt heavy and sleepy after meals. I was very irritable and I perspired from the least exertion. I was often dizzy; I suffered from shortness of breath and it was difficult to collect my thoughts."

Mr. Hodges, who is a painter by trade, is a striking example of age showing the benefit he got from using Dodd's Kidney Pills. He only took two boxes, but with such good results that he says: "I can recommend them to all who suffer from kidney trouble."

Ask your neighbors about Dodd's Kidney Pills.

Many Veterans Applied for Land

6,598 Applications Approved by Qualification Committees in Dominion

Ottawa. — Up till the 3rd of May, 6,598 applications for the benefits of the soldier land settlement provisions had been approved by the qualification committees in the whole of the Dominion. The greatest number is in Alberta, where 1,134 applications have been approved by the Edmonton office and 767 by the Calgary office. Saskatchewan shows 1,264; Manitoba, 1,535; British Columbia, 946.

In the east, the numbers approved in the various provinces are: Ontario, 426; Quebec, 115; New Brunswick, 189; Nova Scotia, 114; Prince Edward Island, 104.

The total number of applications received in all provinces is 9,849. Reports also show that 508 applicants have been recommended for agricultural training; and 143 have applied for, and are actually taking, training, either at the training centres or on farms of selected farmers.

New Zealanders Doubt Japanese

Difficult to Discover Why Japan Wanted Marshall Islands

Wellington, N.Z. — Sir J. Allen, acting premier, declared that he viewed developments in the Pacific with some alarm. It was difficult to discover why Japan wanted the Marshall Islands, unless she wished to dominate the Pacific. It was impossible to indicate New Zealand's naval policy until they received Admiral Jellicoe's advice. It would be insufficient, however, for New Zealand to pay a yearly subsidy. She must train men for the British navy.

Claims for Illegal Warfare

Ottawa.—Canadian claims for losses due to illegal methods of warfare employed by the Germans and their allies are discussed in a memorandum which has been prepared for the government, and the enemy claims of this nature amounting to approximately $34,000 have been filed with the government here. The great bulk of Canadian claims for illegal warfare arise from shipping losses, states the memorandum, which has just been made public.

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make this beauty lotion cheaply for your face, neck, arms and hands

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

Canada's Best Place Is In the Empire

General Currie Says That Is Where the Dominion's Future Lies

London. — General Currie, commander of the Canadian expeditionary corps, speaking at a Canadian pay corps dinner, said: "I believe Canada will get everything in the future better inside of the British empire than outside. So we can go home with a greater sense of nationalism than ever before. We have all been away from Canada many months and are all more or less antagonistic to the Canadian thought and sentiment. They are not. The thought and sentiment of Canadian soldiers will be. I can say it will be anything which is for the good of the country. Our men have lived a little close to their Maker. Discipline is only a self-control which makes you do the right thing."

General MacDonnel remarked that Canada had given soldiers for an imperial military enterprise on an average every twenty years. "I don't know what is going to become of the older men who have thrown themselves in," he declared. "I go down and see the boats sail for Canada. I am glad to see them go, but I am very sorry to say 'Good-bye.'"

THIS WOMAN SAVED FROM AN OPERATION

By taking Lydia E. Pinkham's Vegetable Compound, One of Thousands of Such Cases.

Black River Falls, Wis.—"As Lydia E. Pinkham's Vegetable Compound saved me from an operation, I cannot say enough in praise of it. I suffered from organic troubles and my side hurt me so I could hardly be up from my bed, and I was unable to do my housework. I had the best doctors in Eau Claire and they wanted me to have an operation, but Lydia E. Pinkham's Vegetable Compound cured me so I did not need the operation, and I am telling all my friends about it."—Mrs. A. W. Binzer, Black River Falls, Wis.

It is just such experiences as that of Mrs. Binzer that has made this famous root and herb remedy a household word from ocean to ocean. Any woman who suffers from inflammation, ulceration, displacements, backache, nervousness, irregularities or "the blues" should not rest until she has given it a trial, and for special advice write Lydia E. Soldiers Purchase Land

Moose Jaw, Sask. — Nine returned soldiers who enlisted from Regina and district and just recently returned from overseas, have started a "back to the land" move in the vicinity of Atwater. The men, two of whom are Canadians by birth, one Australian, one American and five English, have purchased a half section each, paying on an average of $27 per acre. They moved onto the land on April 19, each with an outfit of five horses and equipment in proportion. The farms are all improved ones and 100 acres are broken on each.

GENERAL DEBILITY FOLLOWS INFLUENZA

Health Can Only Be Restored Through the Use of a Blood-Making Tonic

Debility is a loss of vitality not affecting any one part of the body particularly, but the system generally. It is dangerous as it reduces the body's resistance to disease. When debility follows acute disease convalescence is slow, and one's former energies return but gradually. An attack of influenza often results in debility. Its secrets for months. Everybody recognizes that the remedy for debility is build up the blood, because the blood goes to every part of the body, and any improvement in the condition is quickly felt throughout the system.

In cases of simple anaemia, or debility following acute diseases such as fevers or influenza, Dr. Williams' Pink Pills will be found valuable, because they really build up the blood and strengthen the nerves. There is no other medicine as valuable for growing children, and for men and women whose nervous energy has been overdrawn. They are worth a fair trial in every case where thin blood and weak nerves have started the trouble. The value of Dr. Williams' Pink Pills has been proved in the home of Mrs. John Fram, Owen Sound, who says: "My daughter Mabel was troubled with a bad cough; she was pale, weak and her appetite was very poor, indeed I feared that she was going into a decline. A friend advised the use of Dr. Williams' Pink Pills and after taking eight boxes she was again enjoying the best of health. Again last autumn Spanish influenza attacked our home, and after the acute symptoms were past, both myself and another daughter were left very much run down. My daughter was so weak that she could not walk to school and would tremble when she got upon her feet. I was so weak myself that I could not do my housework. Again we resorted to Dr. Williams' Pink Pills, and in each case we took five boxes, when we were as well as ever we had been. I never enjoyed better health than I am now doing, and am able again to do my housework. After our experience it is not possible for me to say too much in favor of Dr. Williams' Pink Pills."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Trouble in Hun Government

Conflict Between Erzberger and Head of Peace Delegation

Berne. — Serious differences have arisen between the members of the national German government, and a change may be expected shortly, according to telegrams from Berlin.

The conflict between Mathias Erzberger, head of the armistice commission, and Count von Brockdorff-Rantzau, foreign minister and head of the peace delegation, is said to have reached the breaking point. Erzberger, it is declared, will do his utmost to make difficult the work of the foreign minister, whatever the attitude he adopts at the Versailles peace congress.

INDIA FAMINE RELIEF

An appeal has been issued in which it is stated that 32 million have died and that 150 million are under famine conditions in India. The Toronto organization that has issued this appeal does not fully represent the churches, although prominent members of churches have lent their names.

The question has been raised, and some criticism offered—why church officials have not taken action if the situation is so grave as it is represented to be. Therefore Rev. S. D. Chown, general superintendent of the Methodist Church, Toronto, issues the following explanatory statement:

1. Correspondence recently received from India makes little reference to famine conditions. Dr. Wilkie speaks of much suffering in Gwalior, but other missionaries are silent. This is difficult to explain if the distress is such as it is represented to be.

2. The Methodist Church in Canada has no missions in India, but is aware that a cablegram was sent to Rev. J. Fraser Campbell, clerk of the Central India Council, on April 28th, asking him to report on famine conditions, and the following reply was received May 8th: "Some famine relief necessary." That is mild and does not indicate unusual tragedy.

3. In past years, when famine prevailed in India, the authorities in London took action. This has not been done recently so far as is known to us.

4. Missionaries recently arrived from India state that they had not heard of such distress before leaving that country, and that the India press, mainly first, had not given prominence to such reports.

5. We are told that the information that has come, and has led to the action taken, is almost altogether from sources, of which we are not perfectly assured. For this reason it is felt that information in our possession is able to justify such a strong appeal. On the other hand, it cannot to be said that there is always famine in India, somewhere, and what is true in one place may not be true in another. During the influenza scourge 6,000,000 were reported as having died, and prices have risen enormously, intensifying the food problem which is always acute.

Under all circumstances it seems proper to give our people the above information, and to say further that if collections or subscriptions are taken it would be advisable to send them to the Rev. Dr. Endicott, Wesley Buildings, Toronto, who will hold same until an investigation can be made, and if urgent need is found they will be forwarded to their proper destination.

USEFUL MAP ISSUED

The farmer, merchant or other citizen of the West has often felt the need of information as the exact location of the points at which the sittings of the different courts are held or at which title deeds, chatel mortgages, transfers affecting personal property, etc., may be registered. The new issue of the land registration and judicial districts map which has recently been published by the Department of the Interior through its Natural Resources intelligence branch, shows by a simple color scheme the boundaries of both land registration and judicial districts in Manitoba, Saskatchewan and Alberta. The towns which are the centres of the respective land titles or land registration districts as well as the places where the country or district courts and the Supreme or Courts of King's Bench sit are indicated by simple conventional designs.

A copy of this may may be obtained free of charge on application to the Natural Resources Intelligence branch of the Department of the Interior, Ottawa.

There is a movement on foot in town advocating for a half-day holiday every week during the months of June, July and August.

Beyond reach of fire

PENNILESS, homeless, with his family almost stripped of clothing, thrown upon the charity of the community for their immediate needs, forced to start all over again. All in one night!

He had gone to bed satisfied with his security and with the gratification of having a home of his own and a tidy little sum tucked away. Truly a man who was making his way in the world!

But, as in one flash, all went. The ravaging flames of a fire had swept it all away. The savings and work of a lifetime gone!

It is the tragic story of the man who does not believe in banking his savings. "It is safer where I can keep my eye on it" he is apt to remark, but when the big blow falls he realizes his folly, too late.

In the Bank of Toronto, money is absolutely safe. There it earns a fair rate of interest; there it is protected by all the resources of a strong national institution.

SUPERBA SIFTINGS

The early sown wheat is commencing to color the chocolate fields with a coat of green, while the farmer is busy as usual sowing oats for feed.

There was a fair attendance at the communion service held in the school house on Sunday (4th) when Rev. Findlay conducted the meeting.

A trip through the district southeast of Oyen reveals a vast area of land already sown to wheat and other grains for the coming harvest, while a chat with a number of the yeomen indicates confidence is generally had for a good yield this year for various reasons.

Notwithstanding numerous efforts being made to annihilate the usually stupid gopher, the varmint is still to be seen in abundance.

They've found him!

Who? Why, the youngest Thrift Stamp buyer in Canada. Not only is he the youngest, but buyers of the little prosperity pledges will have to step some to beat his record.

At 2 p.m. on the closing day of the War-Savings drive in Arcola, Sask., last week, was born a new citizen. Before he had been a citizen an hour, he was the actual, if not conscious, possessor of one Thrift Stamp.

Now, if this youthful stakeholder of Canada repeats his birthday performance every day for 20 years, he will have spent $1,025 for Thrift Stamps, but he will collect at the end of that time just $2,953.30, or nearly treble his investment. Pretty soft for Mr. Youngest Owner, is it not?

There is now being inaugurated in the country and smaller towns and villages lacking Association buildings and equipment, Y.M.C.A. work on a plan of county or district organizations. These smaller communities are incapable individually of maintaining an adequate Association organization. The expense involved imposes too severe a financial burden, while at the same time it is impossible to adapt many of the general or larger city methods to these smaller communities. There are, nevertheless, in practically every community, no matter how small, certain prominent men, a group of willing workers, and a fair amount of available money for any good work. Combining these resources in a number of communities located within reasonably accessible distance of each other, and binding the groups of workers in each community into an Association brotherhood and pooling their financial resources, provides the way for efficient administration and the employment of an expert secretary to train, direct and supervise volunteer leaders at each point within the district organization.

Such a plan is worthy of the sympathetic and enthusiastic support of the people of Western Canada. The real strength and spirit of a community does not consist in what it receives from outside, but that which it develops within itself. The plan of organization outlined for this Town and Country Work will not provide the substantial buildings, gymnasiums, and other equipment to be found in cities, but too many people in these days make the mistake of wanting things to be done for them, instead of doing for themselves. What is done for men—and for communities as well—is apt to weaken them; what they do for themselves is sure to strengthen. The old Bible saying is still true—it is more blessed to give than to receive.

It is also true that there is a task for every man and boy in every community and a boy or man for every task in every community. The maximum benefit is derived by man or boy and by the community when within the community these men, boys and tasks are brought together and an earnest effort made by the development of the abilities of the former to eliminate waste and render service.

The Y.M.C.A. aims to enlist the talent now lying latent throughout our smaller towns, villages and rural districts in the work of developing *all-round boys and men in these communities, boys and men who will become the future leaders of this* great Canadian commonwealth.

Now Well and Strong as Ever

After a Year of Great Suffering from Kidney Disease and Lame Back—Two Interesting Letters

Lindale, Alta. — May 19. — It is only after sickness that one properly appreciates health. The writers of these letters show how they appreciate the means whereby health was regained, and recommend the use of Dr. Chase's Kidney-Liver Pills to others.

If kidney disease is to be cured it must be taken in hand early, and that is why the warning given by backache, headache and urinary derangements should be heeded and treatment begun at once.

Mr. C. E. Raymus, Lindale, Alta., writes: "I was a great sufferer from kidney disease and lame back for more than a year. A friend of mine one day told me of Dr. Chase's Kidney-Liver Pills, and, acting upon his advice, I tried them. After I had taken one box I felt better, so I continued until I had used five boxes. By this time I felt as well and strong as ever, and am glad to recommend Dr. Chase's Kidney-Liver Pills to anyone suffering as I did."

"I know Mr. C. E. Raymus, and believe his statement in regard to Dr. Chase's Kidney-Liver Pills to be true and correct."—John Torbett, Postmaster.

Mr. Thomas Austin, Earl Grey, Sask., writes: "I wish to let you know what Dr. Chase's Kidney-Liver Pills did for me. Last summer my back ached so much that I not only could not sleep at night, but could not lie in comfort in bed. I tried several remedies, and finally sent for three boxes of Dr. Chase's Kidney-Liver Pills, but was quite cured by the time I had used one box. I always recommend these Pills to anyone suffering the same as I did, as I am satisfied and thankful that they cured me."

Peace Treaty

Will Protect Europe

Prevents an Alliance With the Russian Bolsheviki

Paris. — The territorial status of Germany as definitely settled by the council of three, says Marcel Hutin, in the Echo de Paris, will in the view of the council protect the general security of Europe. The chapter in which these decisions are incorporated, he adds, puts an effective veto on the "Drang Nach Osten" movement which the Germans desire to pursue, prevents an alliance with the Russian Bolsheviki and forbids the incorporation in Germany of German-Austria.

As regards German-Austria, M. Hutin says that its peace delegation will certainly be called to Paris and Austria will be made a neutral republic under the aegis of the league of nations with the prohibition that she shall not ally or incorporate herself with Germany.

The council of three, M. Hutin declares, also adopted a chapter in the peace treaty defining the status of Alsace and Lorraine which are given absolutely to France.

The outline of the new frontiers of Germany were presented to the council in a report by the special commission composed of Viscount Morley, representing Great Britain; Captain Andre Tardieu for France and Professor Charles H. Haskins, on behalf of the United States.

Increase In Stock Receipts

Edmonton, Alta. — Receipts at the stock yards during the month of March included 2,833 cattle, as compared with 1,408 for the same month last year, and this did not include 588 calves, which was more than double the number of last year also. Hog receipts for March, 1919, were way down, the figures showing 2,729, as compared with 4,676 last year in March. Sheep receipts were 2,410 for March, 1919, as compared with 11 the year previous, and horses—passing through the yards this year were 534, as compared with 203 last year for the same month. The cattle receipts for Edmonton this year to date show a wonderful increase, considerably more than doubling last year's figures for the same period. The figures for this year are 12,917 cattle, as compared with 5,248 last year. These totals include 1,234 calves this year and 720 last. Receipts of hogs for the same period show a decrease from 12,375 last year to 10,411 this year. Sheep receipts to date this year are 8,949, compared to 155 in 1918, and horse receipts at 1,272, are nearly four times the receipts of last year for the same period.

Heart Palpitated

Could Count Every Beat

When the heart begins to palpitate, it will beat fast for several seconds, then slow, then start to flutter, and a feeling of utter depression will come over your whole system, accompanied by weak, fainting and dizzy spells.

When the heart gets into this condition, you become weak, worn and miserable, and are unable to attend to either social, business or household duties.

Milburn's Heart and Nerve Pills will give prompt and permanent relief in all sufferers from any heart weakness or nerve derangements.

Mrs. Walter Greives, Apsley, Ont., writes:—"I had been run down, and doctors told me I was anaemic, but did not help me with their medicines. I could not sleep nights, my heart palpitated so, and I could count every beat.

"I used to have such dizzy spells I would have to go to bed. I was not able to do any work for eight months. A cousin of mine had taken Milburn's Heart and Nerve Pills and told me what they had done for her. I took eight boxes of them, and now I am able to help every day with the work. I am so thankful to tell others what they have done for me, so that they may try this great and wonderful remedy. I hope this may prove good to some one who is suffering the way I did."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Bombard Allied Positions

Archangel. — The Bolsheviki continue the bombardment of the allied positions on the upper Dvina, apparently in the hope of driving the allies out before the allied gunboats can reach the scene. In the meantime, the gunboats are fighting their way up stream through a river filled with ice and it will be several days before they can reach the vicinity of Berezniki.

Must Sign or Be Isolated

Paris. — The complete economic isolation of Germany is being considered by the council of foreign ministers of the peace conference as a measure to be adopted in the event that Germany refuses to sign the peace treaty.

The plan for the measure was submitted to the ministers of the supreme economic council.

IS THERE A BABY IN YOUR HOME?

Is there a baby or young children in your home? If there is you should not be without a box of Baby's Own Tablets. Childhood ailments come quickly and means should always be at hand to promptly fight them. Baby's Own Tablets are the ideal home remedy. They regulate the bowels; sweeten the stomach; banish constipation and indigestion; break up colds and simple fevers—in fact they relieve all the minor ills of little ones. Concerning them Mrs. Moise Cadotte, Makamik, Que., writes: "Baby's Own Tablets are the best remedy in the world for little ones. My baby suffered terribly from indigestion and vomiting, but the Tablets soon set her right and now she is in perfect health." The Tablets are sold by medicine dealers or by mail, at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Moisture Down 24 Inches

Calgary, Alta. — In its second crop report the Lethbridge Herald said the moisture conditions east and southeast, in what last year was a very dry belt, are most favorable, moisture being reported down 18 to 24 inches in the sod, and farther in summer fallow. Breaking conditions are ideal. Along the Aldersyde line the land is working up in good condition, but the reserve supply of moisture is small. From Macleod west and north moisture conditions are practically normal for this time of year.

If Your Food Ferments or Disagrees Just Read This!

Thousands of broken-down despondent dyspeptics have recently been given back their health.

These happy people don't proclaim it was a miracle that endowed them with a new lease of life—it was simply their common sense in selecting a tried and proven medicine, one specially adapted to their particular ailment.

All these splendid cures were effected by Dr. Hamilton's Pills which beyond all question have a strange power to restore a weak or ailing stomach.

If your stomach is tried and overworked try Dr. Hamilton's Pills, and note the prompt improvement. Pain before or after eating will disappear. You'll no longer have that nauseous, gassy, bad tasting sensation. You'll get a real vigorous appetite and digest what you eat. Lots of well-digested food is bound to increase your strength, to make you brighter and more ambitious. In a week you'll feel like a different person, in a month you'll be permanently restored.

For folks who are out of sorts, not feeling just up to the scratch, perhaps bothered with headaches or constipation, to them Dr. Hamilton's Pills will prove a boon.

"This is the charge I give you now. If on or before that date, my nephew, or my brother on his behalf, lays any claim to my estate or title, or any attempt to marry my elder daughter Olivia, or should she not be living, my younger daughter Viola, you shall, on January 10th of that year, call together all those persons named in my will as executors, who are also staunch supporters of the great cause, and in their and your presence my daughters shall tell you the whole story I have entrusted to them.'

"'If my nephew does not attempt on or before 9th January, 19—, to claim my estate, the will in your possession shall thus be rendered null and void, and my property be divided equally between my daughters, the elder of them taking my title. I have written this letter of instruction of mine.'"

"This letter is signed and witnessed." Then he continued speaking. "The day before yesterday our dead friend's shepherd, on behalf of his son, solemnly claimed the title, wealth and estates, also the hand in marriage of my ward here, to whom those estates, wealth and title now belong, owing to the sad death of her elder sister, of which you already know.

"That is all, my friends, and I will now ask my ward to tell you those things which her father entrusted to her."

Viola stood up, and faced the little conclave impressively.

"Messieurs," she said solemnly, "this is what my dying father told me to tell you on this day.

"As you know, my father believed that his family were the descendants of the rightful rulers of France, and to restore the French monarchy he spared neither efforts nor money.

"Some of you were with him heart and soul in his ambitions. You know all that this project meant to him.

"Realizing that he himself could never hope to sit upon the throne of France, and knowing that his daughters never could, when my mother died without giving him a son, and loving her too well to set another in her place, he decided that his nephew, the son of his half brother, should marry my sister, Olivia, and inherit all my father's money, which was to be devoted to the cause he esteemed above all others.

"This decision my father communicated to my uncle, and therefore educated my cousin Victor as his own son, and we all know how glad my uncle was that this should be so.

"Then, as you know, my father fell ill, and was gradually growing worse. However, the doctors told us that he might recover if his mind were kept easy and untroubled, but that any shock or excitement would prove fatal.

"One morning, while his life was still in danger, someone came to see my father, and dealt him his death blow. What this man said, I do not know, but a few hours after his visit my father died in spite of all the doctors could do.

"But before he died he wrote many letters, and then calling Olivia to him he entrusted her with a packet, bidding her take with her Marie, our nurse, and go to Paris, and there place those papers in a place he told her of.

"When she had gone my father told me solemnly that he was going to entrust me with a secret which he believed would alter the destinies of France. This is what it was. That morning his visitor had brought him written proofs that Victor, our cousin, was not our cousin at all, but an imposter. That our uncle had had a son, the real Victor, who had died when he was only a few years old. My uncle, knowing what my father had intended to do for his nephew, had adopted another child, whom he had successfully passed off as his son, thinking thereby, on my father's death, to gain all his money and estates. In spite of all his protestations of loyalty to the cause my father had at heart, my uncle never intended to use this money for its advancement, and it was this unbearable sorrow, this revelation of the treachery of his half brother whom he had trusted, that caused my father's death.

"My father said that he had written to his brother, telling him of the discovery he had made, and saying that for the honor of the family he would not expose his wickedness, unless he attempted to claim, or allowed his supposed son to claim, the estates and money and title, which had been intended for him before that fateful exposure, but that should my uncle make any attempt to obtain what he had now lost all right to, his dishonesty and treachery were to be made public. He told him that the papers relating to the fraud were hidden, and that only his elder daughter knew where. If my uncle put forward no claim before today, those papers were to be destroyed unopened, except for a new will which my father had placed with them, directing that all he possessed was to belong to Olivia.

"If, on the other hand, he did put forward this claim, Olivia and I were to tell you all we know.

"Olivia knew which was the safe deposit in Paris where those papers were placed. She also knew the word that was to open the safe. That was the secret she died to keep. Marie, who accompanied her, knows the place, but not the word, and my dear Olivia is dead, so it seems as though my father's wishes could not be fulfilled.

"Now, Messieurs, I have told you all my story. I have given the secret into your keeping.

"Monsieur (she turned to her guardian) now you understand why I felt justified in marrying my husband.

"My father charged me to guard that secret with my life. I have done so, and now I am free of it, and I thank God, for the telling of it has lifted a heavy burden from my shoulders."

She sat down with a deep sigh of relief, then started suddenly as her guardian rose to speak.

"Messieurs," he said, "I am thankful to tell you that despite Mdlle. Olivia's death I believe that all these sacrifices have not been in vain. I think I know the word which unlocks the safe that holds the papers. It is written at the bottom of the letter I have lately read to you. I did not understand its significance till now. The word is 'betrayed.' I had thought it merely an exclamation written at the end of my friend's letter, implying in him some sorrow I knew nothing of, but now I am sure that it is the last link in the chain, whose key Mme. Richardson has just delivered up to us.

"Gentlemen, we must start for Paris at once. A special train waits us at Charing Cross, and we must make all haste to unmask the despicable villain who has caused so much havoc and desolation and unhappiness in his greed for money, which was not rightly his."

After solemnly kissing Viola's hand four out of the five men left the room. The fifth, Viola's guardian, stayed only to embrace her, and to tell her enthusiastically how he admired her pluck and bravery, in thus faithfully carrying out her sacred trust.

Then he took her to Anthony, and placed her tenderly in his arms outstretched to clasp her close.

And there let us leave her, as monsieur did, free at last, her dire duty done, and a life of happiness before her, charged with love never ending, never failing, clasped in her husband's arms, knowing as never before, peace, and trust and perfect love.

THE END.

Wealth in Arctic Regions

Stefansson Has Plan to Develop Wool, Milk and Meat Industry

Ottawa. — Vilhjalmur Stefansson, the Canadian Arctic explorer, in an address before a large attendance of members of parliament and senators in the railway committee room, presented a scheme for converting the Arctic and sub-Arctic regions of Canada into a great wool, milk and meat producing area.

Mr. Stefansson recently submitted the proposal to Hon. Arthur Meighen, minister of the interior, whose department administers the natural resources of the north and it was then thought advisable that Mr. Stefansson should address the senators and members upon the subject.

At the conclusion of the address Mr. Meighen said the government would consider the proposal.

The Stefansson scheme involves the introduction of large herds of reindeer into the Canadian north and the domestication and development of the musk-ox and muskox. Both these animals will furnish a milk and meat supply. The muskox in addition, will furnish a wool supply.

Community Clubs

The Community Club movement is making good headway in the province of Manitoba under the able supervision of Mr. F. C. Middleton, organizer. A large number of clubs have been formed. Below we give copy of constitution, which gives an idea of how beneficial clubs can be to the community in which they are formed.

A general committee shall be elected composed of one or more representatives of the various organizations or sections represented in the club.

Standing committees, with conveners as above stated, and drawing/two or more of their number from the general committee, may be appointed as follows:

1. Public Forum Committee—

(a) To arrange for local debates and secure speakers from time to time who shall deal with public issues and matters of social welfare generally.

(b) To co-operate with the extension department of the agricultural college and the university.

(c) To encourage the formation, use and upkeep of a community library, using the schools as headquarters wherever feasible.

(d) To arrange for an annual address from the local member of parliament, preferably before the opening of the legislature.

Note—It is distinctly understood, that while contentious public issues may be discussed on their merits, the community club will not allow its forum to be used for the purpose of party propaganda.

2. Better Business Committee—

This committee shall be composed of farmers and business men, and shall take under review the following:

(a) Local marketing conditions and possible improvements; good roads campaign.

(b) The wisdom of establishing a flour mill, a creamery, a market garden, or any other local enterprise.

(c) Better methods of buying and selling by the local merchants.

SUNDAY SCHOOL LESSON

LESSON FOR MAY 18 — THE GRACE OF GOD

Grace means unmerited favor. God's grace means his kindness toward us through Jesus Christ (Eph. 2:7). God's mercy does not go out to men because they are good but because he is good and desires to bestow that goodness upon lost and ruined men in order to make them good.

1. The Grace of God is Salvation (Eph. 2:4-10).

Grace brings salvation; it does not send it. Jesus Christ, who is the embodiment of God's love and grace, came bringing salvation with him. In order to apprehend what the grace of God has done, observe:

1. Man's natural state (Eph. 2:1-3). In the natural man is found all that is opposed to the will and purpose of God. (1) Dead in trespasses and sins (v. 1). The supreme need of the dead man is life, therefore he must have life from without himself. The characteristic of one who is dead is that he is (a) without sensation—"past feeling." (4:19). The natural man, therefore, can neither love God nor hate sin until he is made alive. (b) Without motion. Activity is the demonstration of life. So far as God and holiness are concerned they are motionless. They are as helpless as Lazarus was in the grave. (2) Under the control of fleshly and worldly habit (v. 2). The carnal nature holds sway over their lives. (3) Under the domination of Satan (v. 2). All unregenerate men and women are ruled by Satan. Since he is the god of this age (2 Cor. 4:4), the prince of this world (John 12:31) all who have not been freed by Christ are under the rule of Satan. (4) Under the condemnation and wrath of God (v. 3). Over all these—death, sinfulness, disobedience, lust of the flesh—hangs the wrath and condemnation of God.

2. Man's state by grace (2:4-10). (1) He is alive in Christ (v. 5). The Holy Spirit lays hold upon men dead in sin and quickens them into life. (2) Raised up with Christ (v. 6). God's grace not only makes lost men alive but raises them up with Christ. (3) Association with Christ in glory (v. 6). Christ's incarnation has so identified himself with the race that those who are saved are raised up to be with Christ and shall ultimately share his glory. The actuating principle of God which moved him to thus lay hold upon lost men is his love (v. 4). Man's salvation is due entirely to God's grace. Not only the salvation has been provided in grace but the faith which appropriates it is God's gift (v. 8). Works as grounds of salvation are absolutely excluded. (4) The purpose of God in the salvation of men (v. 7, 10). (a) It is to display his grace in the coming ages. The demonstration to the inhabitants of the spheres in which sin has not entered, in the ages to come, will be the transformation of dead and lost men and their exaltation with Christ. (b) to glorify God through their good works (v. 10; cf. Matt. 5:16). While good works have absolutely no part in the salvation of men God's purpose in saying them was that they might do good works.

2. The Grace of God in Right Living (Titus 2:11-14).

Grace is not only essential to salvation but essential to right living. It teaches saved men (1) to deny ungodliness (v. 12). The saved man has the divine nature. The grace which has saved him teaches him the necessity of a denial of everything that is opposed to God. (2) Worldly lusts (v. 12). The redeemed man is surrounded with the things of the world which have a downward pull upon him. The grace of God teaches him to renounce them. (3) Sober living (v. 12). The grace of God teaches the saved man self-control; to have the reins of his nature well in command and to rule with a strong hand. (4) Righteous living (v. 12). The grace of God teaches the saved man to live uprightly with reference to those about him. (5) Godly living (v. 12). It teaches him to so live in this present world as to enable him to meet God and abide in his fellowship. (6) It teaches the right motive in living (v. 13, 14). The blessed hope of the glorious return of the Lord Jesus Christ is the grand incentive to holy living in this present world. He that has it will keep himself pure. (1 John 3:3).

Will Develop Vancouver Harbor

Plans Include Up-to-date Unloading Equipment

Vancouver, B.C. — The announcement from Ottawa that the federal government would make an immediate grant of $5,000,000 for harbor development here to be expended along the lines indicated in the report made to the government by Harbor Engineer Swan of Montreal, has been received with much gratification. Mr. Swan's recommendations called for an expenditure of over $12,000,000 in all and included the construction of six additional deep water berths, a terminal railway connecting the different sections of the harbor, a fire boat, up-to-date loading equipment, a booming grounds for logs, and ultimately a bridge connecting the north and south shores of the harbor.

Abhor the Turks

Saloniki. — Dr. Gulnis, who for thirty years had worked for the deliverance of northern Epirus from the Turks and for its union with Greece, was assassinated several days ago at Koritsa by a Moslem. The funeral, which was attended by 10,000 persons, according to dispatches to the Athens news agency, resolved itself into a manifestation in favor of Greece.

Build up for the Spring Attack! Put the body in condition for an invasion of the germs of grip, pneumonia or "Spring fever."

At this time of the year most people suffer from a condition often called Spring Fever. They feel tired, worn out, before the day is half thru. They may have frequent headaches and sometimes "pimply" or pale skin and white lips.

The reason for this is that during the wintertime, shut up within doors, eating too much meat and too little green vegetables, one heaps fuel into the system which is not burned up and the clinkers remain to poison the system—a clogging up of the circulation—with inactive liver and kidneys. Time to put your house in order.

For an invigorating tonic which will clarify the blood, put new life in the body, sparkle to the eyes, and a wholesome skin, nothing does so well as an herbal extract made from Blood and Stone root, Oregon grape root and Wild Cherry bark, which has been sold for the past fifty years as Dr. Pierce's Golden Medical Discovery. By reason of the nerves feeding on the blood, when the blood is pure the nerves feel the effect, and neuralgia or other nerve pains disappear because such pain is the cry of the starved nerves for food.

Stratford, Ont.—"I can highly recommend Doctor Pierce's Golden Medical Discovery and Pleasant Pellets. I have used these remedies twenty-five years in my family. Had a very bad case of neuralgia and 'Golden Medical Discovery' completely cured me in a very short time. I have given it to all my family, also to my grand children. I had a grand-child last summer that we thought could not live. We gave him the 'Discovery' and he is strong and healthy as any child could be. I am a great believer in Doctor Pierce's Medicines and would not be without them."—*Mrs. A. Bowling, 208 Railway Ave.*

Stratford, Ont.—"For many years I suffered with neuralgia. It would affect my head, extending down into my neck and shoulders. I took Dr. Pierce's Golden Medical Discovery and was completely cured."—*W. J. Tune, 272 Railway Avenue.*

SERGT. FLOYD HORNE EXPECTED HOME NEXT WEEK

Sergt. F. Horne, who has been overseas three years is expected to arrive back in Canada about the first week in June. Sergt. Horne enlisted in the spring of 1915 and left for France in the fall. He was wounded in May, 1917, at the battle of Vimy Ridge and invalided back to England, where he has been acting as an instructor in one of the camps. While over in England Sergt. Horne has taken unto himself a wife, who will return with him to Canada.

MAY 25TH SUNDAY SCHOOL DAY

Our provincial government has seen fit to issue a proclamation calling upon all people in the province on May 25th to attend some Sunday school session that day.

The Alberta Sunday School Federation has prepared a special program for that occasion and has distributed the same in all sections of the province.

An effort is being made in this way to arouse interest in the work of religious education. The various denominations have united their forces in this work and thus present a united front. Only one in ten in the province attend Sunday school now. Why not all turn out that day?

It may mean that, in a number of districts, someone will have to take the lead for the day. Why not call a meeting for that day and discuss the religious need of the community and suggest plans for meeting the need? Here is an opportunity for the whole province to unite in a common good, and we trust to hear of many successful gatherings.

The general secretary of the federation would like to have a report for the day. A card to 409 MacLean Block, Calgary, would be appreciated.

Oyen Organize Baseball Club

For the purpose of organizing a local baseball association a meeting of enthusiasts was convened on the afternoon of Monday the 19th inst. J. H. Alexander presiding and W. V. Miller acting as Secretary pro-tem.

The following officers were elected:- J. H. Alexander Hon. Presedent, W. F. Hickett Pres., Art Fry, Sec.-Treas., J. Quinn, Playing Manager.

The following complete the executive committee:- C. Dalton J Naismith, and W. V. Miller.

Consideration was given to the need of having proper grounds to play on and a committee was appointed to select a convenient situation and to have it put in shape for action. This committee consists of W. V. Miller, J. H. Quinn and E. P. Barbour.

J. J. Kelly and A. Johnston were elected on the canvassing committee to obtain subscriptions for membership.

It was decided to enter the Oyen club in the Goose Lake Line League and to this end C. Dalton was deputed to represent the local club at the league organization meeting held in Chinook.

It is hoped that the club will get away to a good start and bring considerable honor to our town.

As many baseball players of the district were absent from the meeting, an invitation is extended to such to communicate with the manager, J. H. Quinn.

Arthur Yorath, who has sold his farm to E. Warneckee, left last Saturday for Saskatoon en route for England.
